often extremely delayed in these large events. The Chief believes the funds held in reserve will
be adequate to finance the district until reimbursement.

Additionally, this large unbudgeted expenditure late in the year may create the appearance of
poor fiscal management for the 2017 reporting year, however, given the emergency nature of the
request, the district felt compelled to respond to the highest degree possible. And the all-
volunteer departments responding with 26/28 have no means for issuing payroll, so it was
necessary to take them on as temporary hires and bear the burden of covering their payroll until
reimbursement. Under the legal advice of Snure Law Office, and interlocal agreement with FD
22 was set up to cover the mobilization, and was signed by the commissioners at this meeting.

Budget Hearing: The budget hearing for the 2018 FD 26 budget is tonight, as posted. No
members of the public are in attendance.

SNOPAC/Snocom Merger: SNOPAC and Snocom have approved a merger, beginning Jan 2018. A new interlocal agreement with the new organization, Snohomish County 911, will be presented for approval and signing tonight.

Commissioner-Elect: Tom McMaster Stone was elected commissioner for FD 26, but has moved from the district due to illness. The Chief researched this situation and determined that Mr. McMaster Stone can resign in writing, or can be excused by the commissioners after 3 unexcused absences. Then the board would have 90 days to fill the position.

Thank You Note: The district received a very nice letter from the Church of the Holy Cross, after receiving a donation of some decommissioned fire hose that remained unsold after a surplus sale held by the department. The church is using the hose to irrigate a garden growing food for donation to food banks.

Brush Truck Chassis: A new chassis has been ordered for Brush 54. The deck, skid unit, equipment boxes and other equipment from 54 will be reused on the new chassis.

GEMT: The district will be participating in a program to recoup reimbursement for Medicaid transports. The program has been approved by the DOH, and will be retroactive to July 2016. The district may contract out for the calculation of cost reports, which will be due in March of 2017.

Surplus sale for station 54. A list of items to be sold by Walters, and was approved by a unanimous vote of the board. Items will be sold for scrap or recycled. Residents of the fire district are invited to attend.

Firefighter Academy: Graduates from the academy, 10 firefighters are now volunteering with the district.

Driver Training: District is registered for training, who can then train other firefighters on the right to drive locations, and for other training.

Leadership Training: Leadership training is scheduled in March.
